ONLINE CERTIFICATE PROGRAMME ON SEED SCIENCE & TECHNOLOGY

Name of Department-Botany

Name of the Activity- Certificate Programme on Seed Science & Technology

Date of activity-5th – 21st July 2021

Number of Participants- 116

Dept. of Botany, Sophia Girls' College, Ajmer in collaboration with St. Thomas College, Bhilai, Chhatisgarh organised this 15 days Certificate Programme on Seed science & technology with the following objectives-

- To make the students understand the basics of Seed Morphology and Physiology
- To familiarise them with the role of seed in agriculture and forestry
- To introduce to basic technology used in seed industry
- Initiate research associated with seed storage and seed health
- Equip with skills to assess the seed quality for certification
- To encourage the students, learn beyond specified syllabus.

Expert Talk on: Industry Academia Collaboration-Internship Programs

Name of the Department: Computer Science

Date: 29th July 2021

Total Number of the Students: 53

Venue: Google Meet (Online mode)

The Students of the Department Of Computer Science attended an Online Expert Talk on "Industry Academia Collaboration-Internship Programs" in Collaboration with Pantech E Learning Pvt. Ltd. Chennai, on 29th July 2021 at 1:00 pm (Online). The resource person for this event was Mr. Kumarasamy R., Pantech E Learning Pvt. Ltd. Chennai. He threw a detail explanation about the internship program and how can it prove to be beneficial and fruitful for the students. They shared their working environment and what services are provided by them. And also explained in details the skills, students will be able to adopt at the end of the internship. It was indeed an insightful talk.

Two Days International Webinar on "Exploring the Properties of Materials at Nanoscale"

A two-day international webinar entitled "**Exploring the Properties of Materials at Nanoscale**" was co-organized by the Department of Physics, Patna Women's College (autonomous) and Sophia Girls' College (autonomous) on the 9th and 10th of July 2021. The webinar was sincerely patronised by **Dr Sister M. Rashmi A.C., Principal**,Patna Women's College and **Dr Sister Pearl, Principal**, Sophia Girls' College. **Dr Aprajita Krishna** and **Dr Deepmala** jointly convened the program. **Dr Amrita** was the organising secretary and Dr Kavita Verma and Dr Rohit Singh were the organisers of the webinar. A total of ca. 289 participants registered for the program.
Following the prayer, the second day started with the technical session. It commenced with the **moderation** by **Dr Deepmala**, the **Joint Convenor,** where the first resource person of the session, **Prof. Dr Babu Lal Ahuja,** Professor, University College of Science, Mohanlal Sukhadia University, Udaipur, was formally introduced. The topic of his talk was "**Study of Electronic Response Using Inelastic Scattering and DFT Calculations"**. The presentation took the participants from the basics of the Compton Effect, through its quantum mechanical relevance to devising and utilization of Compton Scattering Technique. It further provided a glimpse into exploring the corroboration of experimental findings and theoretical calculations using Density Functional Theory.

Further, **Dr Sandhya, Head, Department of Botany, Sophia Girls' College, Ajmer** introduced the attendees to the fourth and last resource person of the webinar, **Prof. Dr Prakash Chandra Agrawal**, Principal and Professor of Physics, Regional Institute of Education (N.C.E.R.T.), Bhubaneswar. The topic of his talk was "**Metallic Glasses to Bulk Metallic Glasses: Emerging Materials**". In his talk, Prof. Agrawal talked about the basics and his research findings in the field of metallic glasses. His talk intrigued the participants with many of the interesting properties that metallic glasses exhibit. Moreover, he also showed various unusual properties of these materials and their applications in a plethora of fields.

The second and the last day of the two-day webinar concluded with a **valedictory speech** by **Dr Sister Pearl** on the relevance of these webinars in the current world scenario. The vote of thanks was addressed by **Dr Deepmala** with a positive impression of such a fruitful and productive webinar. The participants were thankful tothe patrons, convenors and webinar organisers for giving them this platform to get acquainted with the current research activities being carried out across Indian and the globe.

DAY 2

06 Sunday, 11 JULY, 2021, Patna City JAGRITI TIMES

Webinar On "Investigating the Properties of Materials at Nanoscale" Held At Patna Women's College

@Garima Pokhar

The webinar is being co-coordinated by the Department of Physics, Patna Women's College (self-governing) and Sophia Girls' College (self-sufficient) on the ninth and tenth of July 2021. The online course is on a rule truly dispar-aged by Dr Sister M. Rashmi A.C. Principal, Patna Women's College and Dr Sister Pearl, Principal, Sophia Girls' College. Dr Aparajita Krishna and Dr Deepmala jointly convening the program. Dr Amrita is the getting sorted out secretary and Dr Kavita Verma and Dr Pankil Singh are the coor-dinators of the online class. An aggregate of ca. 250 members enlisted for the program and ca. 200 members went to for the main day of the online class. The primary day began with a debut address by Dr Krishna, Head, Department of Physics and Dean, National and International Collaborations Coordinator, Patna Women's College, the Convener of the pro-gram. She officially expanded her apprecia-tion to Dr Sister M. Rashmi A.C., Principal, Patna Women's College and Dr Sister Pearl, Principal, Sophia Girls' College, for empowering the association of a deductively edifying worthwhile online course. Following the debut discourse, a wel-come discourse was tended to by Dr Sister M. Rashmi and a gre-legion to the subject of the online course was given by Dr Sister Pearl. The specialized meeting initiated with the mod-eration by Dr Amrita, the Organising Secretary, where the principal asset individu-al of the session, Prof. Dr Anshul Srivastava, Professor, Banaras Hindu University was officially presented. As the topic of the online class was properties of materials at the nanoscale, Prof. Srivastava acquainted the participants with the intricate details of elec-tron microscopy. The subject of the discussion was "Excursion from Eye to Electron Microscope". The show gave a brief look into electron microscopy which is a fundamental device to describe mate-rials of nanoscale mea-surements. Following the inquiry answer meeting to the principal discussion of the webi-nar, Dr Amrita intro-duced the participants to the second asset indi-vidual of the webinar, Prof. Dr Himanshu Narayan, Professor and Former Head, National University of Lesotho, Roma. The subject of the discussion was "Miracle of Nanoscience and Nanotechnology". In his discussion, Prof. Narayan discussed his exploration with differ-ent materials that dis-play imminent applica-tions in the fields of wastewater treatment, electroanalysis and use of quick weighty parti-cles in incorporating nano-grains of materi-als. After five discussion, a post-show question-answer meeting was led. The principal day of the two-day online class closed with a statement of gratitude tendered in by Dr Amrita and with a ton of eagerness and inspirational perspective among the participants for another useful day.

30 Days "Internship Program on Advanced Python Programming"

Name of the Department: Computer Science
Date: 6th September 2021- 8th October 2021
Total Number of the Students: 44
Venue: Online Mode- Zoom

The Students of the Department of Computer Science took part in the 30 Day "Internship Program on Advanced Python Programming" organized by Pantech e- learning from 6th September 2021- 8th October 2021. The company offered best oftheir services to the students. The internship helped the students understand the concept of Python Programming and they were taught to make different projects using python during their internship period. This internship proved to be beneficial and fruitful for the students. And the students used best of their skills for the same. It was indeed a great learning opportunity for them. After the completion of the program the students were given a certificate of completion.

List of Students Registered for the 30 days Online Internship Program on "Advanced Python Programming "

S.No.	Student Name	Class	S.No.	Student Name	Class
1.	Ansha Kanwar Rathore	BCA-II	26.	Divya Vasandani	IMSC - II

Venue - Online (Google Meet Platform)

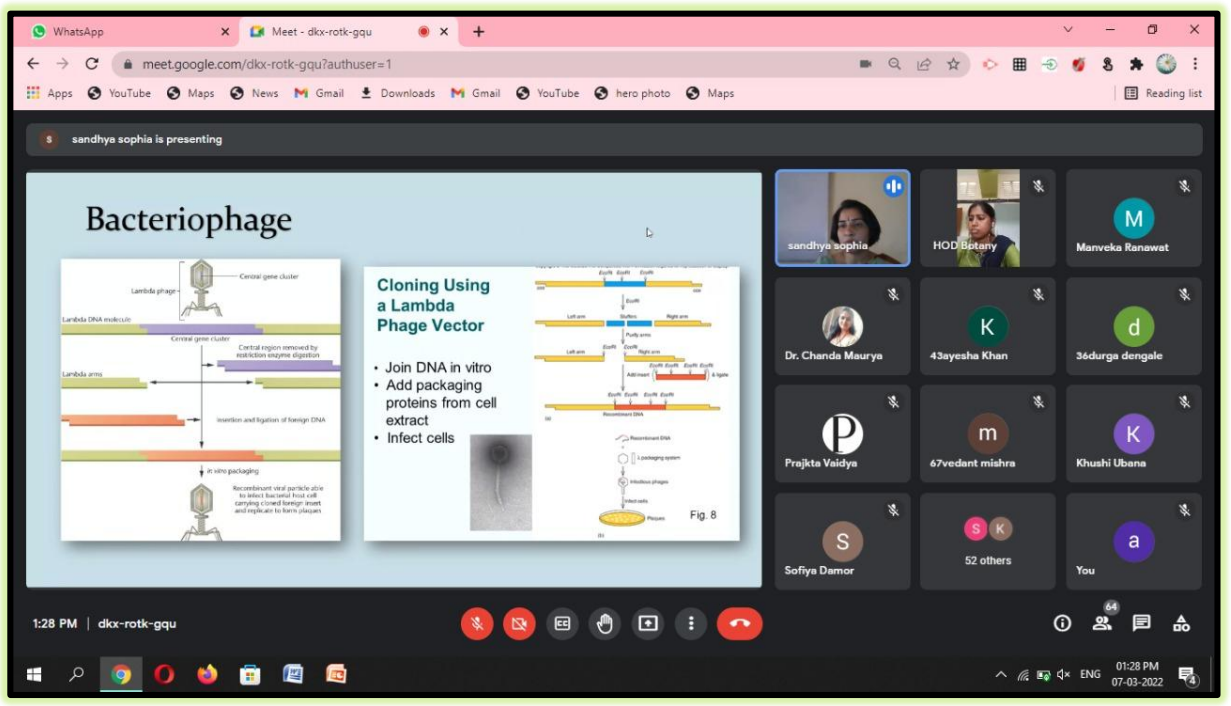
Activity Coordinators -

1. Dr. Sandhya, HOD, Dept. of Botany, Sophia Girls' College (Autonomous), Ajmer, 9460478918
2. Dr. Shrutika Kumthekar, HOD, Dept. of Botany, GNC of Arts, Science and Commerce, Mumbai, 9819174496

Objective of the Activity -

In Collaboration with Guru Nanak College of Arts, Science and Commerce, Mumbai, the Department organized a 4 days **Online Staff Student Exchange Program.** This Exchange Program will contribute in sharing of knowledge and expertise about Plant Tissue Culture and Recombinant DNA Technology.

DAY 1:



sandhya sophia is presenting
Bacteriophage
Cloning Using a Lambda Phage Vector
• Join DNA in vitro
• Add packaging proteins from cell extract
• Infect cells
