SOPHIA GIRLS COLLEGE (*AUTONOMOUS*) AJMER
Department of psychology
Lesson Plan
Mrs. Asha Sharma
Session from 2013-2014 to 2017-2018

LESSON PLAN FOR THE SESSION 2017-18

B.A. & HONS. SEM I

Paper I : Basic Psychological Processes-I

Month	Duration	Topics	Other Activities
July – August	(Time: 11:30-12:30 pm) One month	Introduction to Psychology: Definition, Nature and Scope of Psychology. Goals of Psychology. Historical Perspectives in Psychology (Structuralism, Functionalism, Gestalt, Psychoanalysis). Modern Perspectives in Psychology: Behavioral, Humanistic, Cognitive, Evolutionary, Socio-cultural and Multi cultural. Methods of psychology: Experiment, Observation, Interview, Questionnaire, Case Study, Survey, Meta analysis.	Presentation, group discussion and class test
August-September	One month	Biological Basis of Behavior Genes and behavior. Nervous System – Neuron: Structure, function, synapse, neurotransmitters . The Central Nervous System (The Brain & the Spinal Cord), Peripheral Nervous System, Autonomous Nervous System, Somatic Nervous System. Endocrine glands. Hormones and their effects on behavior. Sensory – Perceptual processes. Eye and Ear: structure and functions	Group discussion, Teaching through diagrams, presentation
September-October	One month	Sensory, Attention and Perceptual Processes: . Attention: Definition, nature & determinants of Attention. Selective Attention, Sustained Attention. Perception: Definition, determinants, Perceptual constancies (size, shape and brightness). Organizing Principles of perception. Form and Depth perception. Thinking: Nature and types of Thinking. Problem Solving: Meaning and Nature of Problem Solving. Methods of Problem Solving.	Group discussion on concerned topics and chalk and board method

B.A. & HONS. SEM I

Paper II : SOCIAL PSYCHOLOGY-I

Month	Duration	Topics	Other activities
July –August	(Time: <u>11:30-</u> <u>12:30 pm</u>) One month	Nature, Goals & Scope of social psychology. Social psychology and its relation with other sciences. Methods of social psychology–Experimental, Correlational approach, Sociometry & Cross cultural. Approaches to social Psychology2: Biological, Learning, Cognitive, Psychoanalytic and Role theory. Social Perception: Perceiving ourselves (Self–concept, Self-esteem, Self-expression). Perceiving others: Forming impressions, Role of non-verbal cues.	Presentations, notes for important topics
August-September	One month	Prejudices-Nature, components, acquisition and reduction of prejudices. Stereotypes. Attribution of causality – Theories and Biases. Interpersonal attractions and its determinants.	Explanations with the help of experiments and case studies
September-October	One month	Group: Structure and Function Behavior in the presence of others: Social facilitation, Social inhibition, Social loafing, De-individuation Social Influence: Conformity (The Sheriff and the Asch Study), cohesiveness, group size, Social norms, obedience and social modeling.	Group discussion and learning through experiments

B.A. & HONS. SEM III

Paper I : STATISTICS IN PSYCHOLOGY-I

Month	Duration	Topics	Other Activities
July –August	(Time: <u>12:30-1:30</u> <u>pm</u>) One month	Meaning and Purpose of Statistics. Types of statistics: Descriptive and Inferential Statistic,. Application and Importance of statistics in psychology. Drawing of frequency distribution. Graphical representation of grouped data: Histogram, Frequency Polygon, cumulative frequency graph, Ogive.	Chalk and board method and Class tests.
August-September	One month	Significance and Types of central tendency – Mean, Median and Mode. (computation and uses) Significance and Types of Variability: Range, Quartile deviation, Standard deviation. (computation and uses).	Chalk and board method and Class tests.
September-October	One month	Scales of Measurement. Nominal, Ordinal, Interval and Ratio. Parametric and non parametric statistics Properties and characteristics of normal probability curve and Deviations – Skewness and Kurtosis.	Explanations through research examples and Class tests.

B.A. & HONS. SEM III

Paper II : PSYCHOLOGICAL ASSESSEMENT

Month	Duration	Topics	Other Activities
July –August	<u>(Time: 12:30-1:30 pm)</u> One month	Human assessment Nature and scope Principles of Psychological Test Construction: Steps in test construction, Item analysis. Meaning and types: Reliability, Validity, Test norms. Uses, Limitations & Precautions of psychological tests.	Presentations and class tests for important topics.
August-September	One month	Assessment techniques: (Meaning with examples) 1) Types of Tests: Individual and Group, Speed and Power tests. 2) Assessment of Intelligence: Verbal, Non-Verbal, Performance tests 3) Assessment of Personality: Psychometric and Projective Techniques.	Explanations through psychological tests.
September-October	One month	Application of Psychological Testing: Assessment in Educational Setup, Counseling and Guidance and Organizational Setup	Explanations through psychological tests.

B.A. & HONS. SEM II

Paper I : Basic Psychological Processes-II

Month	Duration	Topics	Other activities
Mid of Dec.	(Time: 11:30-12:30 pm) One month	Learning, Forgetting and Memory Learning: Classical & Operant conditioning. Basic processes (experiment, generalization, discrimination, extinction, spontaneous recovery). Trial and error method of learning. Laws and Curves of learning. Cognitive learning, Observational learning, Memory – Definition and process (Encoding, Storage and Retrieval). Short term and Long term Memory. Mnemonic Methods of retention. Forgetting – Decay, Interference, Retrieval failure, Motivated forgetting and Amnesia.	Teaching through experiments and group discussion
Mid of Jan.	One month	Motivation: Indicators of motivated behavior. Nature and classification of motives – Biogenic, sociogenic, Intrinsic and Extrinsic. Maslow's need hierarchy and other theories of motivation. Conflict and Frustration. Emotion – Nature, Development & Physiology of emotions. Expression and Control of emotions. Theories of emotion (Cannon-Bard, James-Lange, Schacter-Singer, Opponent process).	Group discussion and notes for important topics
Mid of Feb.	One month	Intelligence – Definition, nature, determinants, measurement and theories of intelligence (Guilford, Thurstone, Spearman, Gardner, Robert Sternberg). Personality – Meaning and Nature. Trait (Allport's Theory, Cattell's Theory). and Type theories. Psycho-analytical theory by Freud, (Biological and Socio-cultural determinants). Assessment of personality: Interviews, <u>Personality Inventories (16 PF and MMPI)</u> , Projective techniques.	Explanation through experiments

Paper II : SOCIAL PSYCHOLOGY-II

Month	Duration	Topics	Other activities
Mid of Dec.	(Time: 11:30-12:30 pm) One month	Attitude - Nature, Functions, Measurement, Formation & Change of attitude (Balance and cognitive dissonance theories). Theories of reasoned and planned behavior. Pro-social behavior - Theoretical explanation. Co-operation and Helping behavior. Personal Situational and Bystander effects.	Presentation and discussion on concerned topics
Mid of Jan.	One month	Communication – Definition, Types, Process, Barriers of communication. Aggression – Theoretical perspective, Trait, Situational and Social learning approaches. Personal and social determinants of aggression. Control and Prevention of aggression.	Explanation through activities and group discussion
Mid of Feb.	One month	Current social issues - Factors in birth control, Meeting the challenges of health of women and children, Personal space and Territoriality, Density and Crowding, Influence of environmental conditions on behavior (noise and pollution).	Group discussions and learning through examples

B.A. & HONS. SEM IV

Paper I : STATISTICS IN PSYCHOLOGY-II

Month	Duration	Topics	Other Activities
Mid of Dec.	<u>(Time: 12:30-1:30 pm)</u> One month	Correlations – Concept and types; Pearson's Product Moment Correlation and Spearman's Rank Order Correlation; (computation) Familiarity with other correlation methods – Biserial & Point biserial correlation (only theory)	Chalk and board method and Class tests.
Mid of Jan.	One month	Hypothesis testing and making inferences. Concept of Levels of significance, Degree of Freedom. Standard Error of Mean, Nature and Assumption of 't' distribution; Computation of 't' value for Dependent & Independent, Large & Small samples; Interpretation of 't' values.	Chalk and board method and Class tests.
Mid of Feb.	One month	Anova – Purpose and Assumptions(Only theory). Non-parametric tests – Nature and Assumptions, Chi-square, (meaning and computation) Uses of SPSS in Psychological Statistics.	Explanation through research examples and Class tests.

Paper II : RESEARCH METHODOLOGY

Month	Duration	Topics	Other Activities
Mid of Dec.	(Time: 12:30-1:30 pm) One month	Characteristics of scientific method. Nature of psychological research – Quantitative and Qualitative. Variables, Controls & Hypothesis in experiments.	Presentation and discussion on concerned topics
Mid of Jan.	One month	Tools of Data Collection – Observation, interview, questionnaire, survey, schedule. Types of Research: Applied, Fundamental, Quantitative, Qualitative, Experimental, Ex-post facto, Longitudinal, Cross sectional.	Explanation through self exploration activities
Mid of Feb.	One month	Basic Principles of Experimental designs: Experimental designs: Pre – Post test design, Factorial design and randomized design and randomized block design. Sampling – Probability & Non-probability sampling, Sample size and Sample errors. Analysis of data and report writing.	Group discussions
