Sophia Girls' College (Autonomous), Ajmer **Department of Computer Science** Course Plan Ms. Laveena Ganwani

# **SESSION 2022-23**

#### Odd Sem

S.No.	Class	Semester	Paper
1.	BCA	Ш	Database Management System
2.	BCA	I	PC Software Lab
3.	MSC	I	Electronic data processing
4.	VCA	I	PC Software
5.	BLIS	I	General Application Software
6.	BLIS	I	Information and Communication Technologies Basics-II

# SOPHIA GIRL'S COLLEGE, AJMER (AUTONOMOUS) B.C.A II (SEMESTER III) 2022-23

DBMS-I (BCA-302) Min. Marks: 30(20 Ext;10 Int)

**COURSE PLAN** 

Credit: 03

SEM III Month	UNIT/TOPIC	Concepts/facts	Teaching Pedagogy	Learning Outcomes	Questions	Marks Weightage
JULY	UNIT I Overview and history of DBMS, Basic DBMS terminology, File processing v/s DBMS, advantage and disadvantage of DBMS, DBA and his responsibilities, Data abstraction, physical and logical data independence. Architecture of DBMS: client/server architecture, 2 tier & 3 tier.  Overview of hierarchical, network and relational models, comparison of network, hierarchical and relational models.	Concept and need of DBMS, importance of DBA in DBMS  functioning of database management systems  Utilize a database modeling technique	PPT, Comparison with Charts,  Layered architecture diagram. Comparison Charts	Understand the concept of dbms and its application, understand importance of Layer architecture of dbms. Understanding of different data models	Knowledge Based -Who is DBA? - Define the term Data and Information.  Understanding Based - Illustrate the advantages and disadvantages of DBMS.	Knowledge60 Understanding-30 Higher Order-10
AUGUST- SEPTEMBER	Entity relationalship model: Overview of DataDesign Entities, Attributes and Entity Sets, Relationship	Apply the principles of data modeling using	PPT, Diagrams, Models	Design ER- models to represent simple database application	- What is the Role of	

Max. Marks: 75 (50Ext; 25 Int)

	and Relationaship sets  Unit-II	entity relationship  Apply Graphical	Graphically	scenarios, Familiar with basic	Aggregation, Abstraction in	
	Enhanced ER Model: Generalization, Specialization, Aggregation. Implementation of sequential, random & indexed sequential file organization. Types of Keys. E.F.Codd's rules, Relational Algebra	Representation On Data base.	represent the relationship between database	database storage structures and access techniques	the enhanced E-R model?  Higher Order Thinking Skills Based - Elaborate the	
	Normalization: Functional dependencies, Fully Functional dependency, Transitive dependency, Normal forms: first, second, third normal forms, BCNF Database integrity: entity integrity, domain integrity, referential integrity	Build indexing mechanisms for efficient retrieval of information from a database.	PPT, Diagrams, Examples		role and responsibilities of DBA Explain Client- Server architecture.	
OCTOBER- NOVEMBER	UNIT III Introduction to SQL:Characteristics and Components of SQL, SQL data types and literals, Types of SQL commands, SQL operators.Table Constraints: Null Constraint, Primary Key,	Create and access the database using relational algebra operator		Understands the relational algebra concepts and operators which helps in understanding queries, Identifies the		

My	*	
業		
	4	Ļ
HEEK	12 10	EDQH .

Unique key constraint, Foreign Key constraint, domain key constraint, Check Constraints, & Not Null.  Scarching, Matching & Basic Oracle Functions; String, Numeric, and Aggregate Functions. Queries based on group be clause, order by clause, having clause, Unions, Intersection, Minus SQL, Sub queries & joins. Introduction of views and indexes.	Create and access the database using relational algebra good database design and normalization techniques to normalize a database.	PPT, tables, Examples PPT, Comparison chart, database tables	functional dependencies, • Improve the database design by normalization.

# SOPHIA GIRL'S COLLEGE, AJMER (AUTONOMOUS) B.C.A I (SEMESTER I) 2022-23

Prac: PC Software Lab (BCA - 105)

Max. Marks: 50 (35Ext; 15 Int) Min. Marks: 20(15 Ext; 5 Int)

#### **COURSE PLAN**

Credit: 02

SEM I Month	UNIT/TOPIC	Concepts/facts	Teaching Pedagogy	Learning Outcomes	Questions	Marks Weightage
AUGUST	MS-Word: Introduction to MS-Word, Features, Application Areas and its uses, types of views, Creating & Saving: New Document, copy, cut, paste, paste special, clipboard, undo, redo, Fonts,  Paragraphs: Indentation and Spacing, Columns & Breaks, Styles, Find, Replace & Goto. Inserting Tables, Picture, ClipArt, Shapes, Smart Art and Charts, Symbols and Equations, Hyperlink, Bookmark. Header & Footer. DropCap, Textbox, WordArt, Date and Time.	formatting, also able to create interactive graphical documents.	Implement the various tools and features of MS Word		Understanding Based Write in brief about the use of different view of a document available in MSWord.  Why we use watermark in MS-Word? How do you create a watermark in Word?	Knowledge40 Understanding-40 Higher Order-20
	Table of contents, Footnotes and Endnotes, Page background. Mail merge,	Able to create tables and mailing technique.				

	Macros, Auto correct and Auto Text. Comments, Page Setup, Size, Margins, Gutter,				Higher Order	
	Orientation.				Thinking Skills Based	
	UNIT-II  MS-PowerPoint: Introduction to PowerPoint, Features, Application Areas and its uses, Creating Presentations through Blank Presentations,	Identify the importance of PPT features.	Implement the slide presentation, and graphics animations	identify and work with basic Word tools and features	- What are drives and folders? How does MS Window organize files and folders on drives? - List the features of MS Word.	
SEPTEMBER	Templates, Slide Master, Views of PowerPoint, Formatting of Presentations: Inserting Graphics and Animations,	Apply graphical and animations on the Slides		Edit text and modify the appearance of text in a Word document		
	Formatting & Customizing Presentations: Slide Transactions, Custom Animation, Inserting sounds. Set up and Custom Slide Show, Handouts.	Able to change the formatting of the slides, and insert the animations, sounds		insert special characters and graphical objects organize data in tables customize the PowerPoint environment and a design template		
				Add SmartArt graphics to a presentation		

				Add Media and Animations effects to a presentation		
	MS-Excel: Introduction, Features, Application Areas and its uses, views and its types, formatting and its types.	Introduction of MS-excel  Concept of charts	PPT,Presentations by students	Develop charts and validation on the data	Mnowledge Based  Define Ms-excel?  Understanding Based  Explain how you can create chart for student	Knowledge—40 Understanding-40 Higher Order-20
OCTOBER	Charts: Line, bar, column, area, pie. Pivot Tables, Data management (Sort, filters, Validation, consolidation, Text to column), auditing and tracing  UNIT-III  Functions and Formulas - Text: char, concatenate, exact, find, left, right, mid, lower, upper, proper, search , substitute, trim.  Logical: and, or, not	Implement formulas in Ms-excess	Projects, problem solving activities,practic e,exercises	Apply functions on the excel sheet	Higher Order Thinking Skills Based  Create reports & forms on student database?	Angular Order-20

NOVEMBER	Math and trig: abs, int, even, odd, fact, mod, pi, power, product, round, roman, sign, sqrt, trunc	Utility of Compression and various standards, privacy aspects of project	PPT,MCQ'S,gro up discussions,quiz	Study laws of multimedia and importance of compression technique	
	Statistical: Average, count.  Protecting sheet and workbook.		PPT, Practical Implementation, assignments

Min. Marks: 30(20 Ext;10 Int) Credit: 03

SEM I Month	UNIT/TOPIC	Concepts/facts	Teaching Pedagogy	Learning Outcomes	Questions	Marks Weightage (%)
SEPTEMBER	UNIT-1 Overview and History of DBMS, Basic DBMS terminology, File Processing System v/s DBMS, advantages and disadvantages of DBMS, DBA and his responsibilities, Data Abstraction, Data independence, Architecture of DBMS: Client /Server architecture, 2 Tier & 3 Tier. Data Models, Entity	Optimization in day to day life and how it is applied to various operations in DBMS  How keeping time attribute is important in databases	PPT, Practice problems,assignments	Compare and Contrast between different types of databases. Optimize the operations	Knowledge Based  What is query?  Define file processing?  Understanding Based  Explain the data independence  Give a brief explanation of architecture of DBMS	Knowledge 40 Understanding- 40 Higher Order- 20

	Relationship model: Attributes and Entity Sets, degree of relationship, Enhanced ER Model: Generalization, Specialization, Aggregation. File organization. Types of Keys, E.F.Codd's rules, Relational Algebra, Normalization, Database integrity  UNIT-II Introduction to	Importance of Relational model			Higher Order Thinking Skills Based  Compare between generalization & aggregation	
OCTOBER	SQL:Characteristics and Components of SQL, SQL data types and literals, Types of SQL commands, SQL operators. Table Constraints: Null Constraint, Primary Key, Unique key constraint, Foreign Key constraint, domain key constraint, Check Constraints, & Not Null.	How data can be processed from various sites in distributed databases.  Problems that do exist in distributed architecture  Concept of keys in	PPT, Quiz,MCQ'S,blended learning	Implement basic operations of database language	Write a PL/SQI code for trigger creation	
	Searching, Matching & Basic Oracle Functions: String, Numeric, and Aggregate Functions. Queries based on group by clause, order by clause, having clause, Subqueries & joins.	Understand subqueries & joins in DBMS				

NOVEMBER	Searching, Matching & Basic Oracle Functions: String, Numeric, and Aggregate Functions. Queries based on group by clause, order by clause, having clause, Subqueries & joins	Importance of PL/SQL and data types available in PL/SQL in respect to SQL	PPT, Practical Implementation,practice exercise	Handle the events occurring on database	
DECEMBER	UNIT-III Introduction to PL/SQL and its advantages over SQL, PL/SQL block structure, variables and constants, attributes, character set, data types, control structures, conditional control. Sequential control, Introduction to Cursor (Implicit & Explicit), Error handling in PL/SQL, creatingfunction & procedure, package functions, package procedures, Oracle transactions Database Triggers: Introduction, Use & type of database Triggers, Triggers Vs. Declarative Integrity Constraints, BEFORE Vs. AFTER Trigger Combinations, Creating a Trigger, Dropping a Trigger.	Different ways of handling error in PL/SQL.  Creating procedure, Trigger  Error handling  Importance and various combinations of triggers in databases	PPT, Practical Implementation, problem solving activites, blended learning	Handle the events occurring on database and explicit error handling

SEM I Month	UNIT/TOPIC	Concepts/facts	Teaching Pedagogy	Learning Outcomes	Questions	Marks Weightage
AUGUST	UNIT-I  Software: System software, application software, utility software.  User Interface: Introduction to CUI and GUI and Comparison.  MS Windows, Features of Windows, Desktop (My Computer, My Document, Recycle Bin, Network Places, Internet Explorer. Windows Explorer, Start Menu and Task bar.  System Tool:, Disk defragmentation, System Information, System Back up & Restore.	Demonstrate the features of MS Window.	PPT, Comparison chart	Identify the features of common application of MS window.	Knowledge Based - Why is software needed in computer? - Differentiate between Custom software and Utility software.  Understanding Based - Write in brief about the use of different view of a document available in MSWord.	Knowledge40 Understanding-4 Higher Order-20

	Control Panel : Add & Remove Hardware / Software, Date & Time, Personalization , Font, Mouse, Keyboard, Printer & Faxes, Sound, User Account, Windows Task Manager, Power option, Folder Option.	Control Panel	PPT		- Why we use watermark in MS-Word? How do you create a watermark in Word?
SEPTEMBER	MS-Word: Introduction to MS-Word, Features, Application Areas and its uses, types of views, Creating & Saving: New Document, copy, cut, paste, paste special, clipboard, undo, redo, Fonts,  Paragraphs: Indentation and Spacing, Columns & Breaks, Styles, Find, Replace & Goto. Inserting Tables, Picture, ClipArt, Shapes, Smart Art and Charts, Symbols and Equations, Hyperlink, Bookmark. Header & Footer. DropCap, Textbox, WordArt, Date and Time.  Table of contents, Footnotes and Endnotes, Page background. Mail merge, Macros, Auto correct and Auto	Able to use paragraph formatting, also able to create interactive graphical documents.  Able to create tables and mailing technique.	Implement the various tools and features of MS Word	identify and work with basic Word tools and features  Edit text and modify the appearance of text in a Word document insert special characters and graphical objects organize data in tables	Higher Order Thinking Skills Based - What are drives and folders? How does MS Window organize files and folders on drives? - List the features of MS Word.

SEM I Month	UNIT/TOPIC	Concepts/facts	Teaching Pedagogy	Learning Outcomes	Questions	Marks Weightage
AUGUST	UNIT-I Introduction: Computer, Definition, Block Diagram, Characteristics, Hardware & Software. Software & its types, User Interface: Concept of CUI & GUI. MS Windows, Desktop (My Computer, My Document, Recycle Bin, Internet Explorer. Start Menus, Taskbar, Windows Explorer.  Network- Concept, Components, Topologies, LAN,WAN,MAN,VPN MS-Word: Introduction to MS- Word, Features, Application Areas & its uses, types of views, Creating & Saving: New Document & Templates. Formatting, Editing & Printing: Cut, copy, paste, paste special, clipboard, undo, redo, Fonts, Paragraphs:	importance of network concepts. And Able to use paragraph formatting, also able to create interactive graphical documents.	PPT lecture, Comparison chart  PPT lecture, Diagram Models Implement the various tools and features of MS Word	Understand the functionality of software and its features.  Identify the network concepts and its purpose.  identify and work with basic Word tools and features  Edit text and modify the appearance of text in a Word document insert special characters and graphical objects	Knowledge Based - Why is software needed in computer? - Differentiate between Custom software and Utility software.  Understanding Based - What is the use of AutoCorrect feature? You have to typed a document and you want to check the spelling mistakes	Knowledge40 Understanding-4 Higher Order-20

SEPTEMBER	Indentation & Spacing, Columns & Breaks, Styles, Themes, Find, Replace & Goto. Inserting Tables, Picture, ClipArt, Shapes, Symbols & Equations, Hyperlink, Bookmark. Header & Footer. DropCap, Textbox, WordArt, Date & Time, Footnotes & Endnotes, Captions, Watermark, Page Color, page Borders, Page background. Mail merge, Macros, Spelling & Grammar, Auto correct & Auto text. Page Setup, Size, Margins, Gutter, Orientation.  UNIT-II MS-Excel: Introduction, Features, Application Areas & its uses, views & its types, formatting & its types, Functions & Formulas Date & Time: Date, day, month, year, now, today, time, hour, minute, seconds.	Understanding the basic features and importance of functions in MS-Excel	Implementation of various functions and data representation	Formatting the paragraph,	- Why we use watermark in MS-Word? How do you create a watermark in Word?  Higher Order Thinking Skills Based - What is worksheet? Discuss the use of Auto fill option with the help of an example What are keys? Explain the utility of forms.	
	odd, fact, mod, pi, power, product, round, roman, sign, sqrt, trim. Statistical: Average,		a .			

	Charts: Line, bar, column, area, pie. Data management: Sort, filters, auditing & tracing, Protecting sheet & workbook.	Able to use different charts and manage the data.			
	UNIT-III  MS-PowerPoint: Introduction to PowerPoint, Features, Application Areas and its uses, Creating Presentations through Blank Presentations,	Apply graphical and animations on the Slides	Implement the slide presentation, and graphics animations	Capable for creating  Create and modify a database structure	
OCTOBER	Templates, Slide Master, Views of PowerPoint, Formatting of Presentations: Inserting Graphics and Animations, Formatting & Customizing Presentations: Slide Transactions, Custom Animation, Inserting sounds. Set up and Custom Slide Show, Handouts.	Able to change the formatting of the slides and insert the animations, sounds		<ul> <li>understand about table relationships, data types and keys</li> <li>create simple and effective queries</li> </ul>	
NOVEMBER	MS-Access: Introduction, Concepts of databases, Data Types creating a database & tables, relationship, queries(select, update, delete), creating Auto forms and Auto reports.	Enable to Handle the database with Creating A Query Design, Applying Record Criteria, Reporting	Creating database and tables and extract data in efficient way.	• create meaningful summery reports
