

Sophia Girls' College (Autonomous), Ajmer

GRADUATE ATTRIBUTES

The Graduate Attributes of Sophia Girls' College (Autonomous), Ajmer are focused on holistic development of the students and this is achieved through scholastic excellence, moral values, professional and global competence, personal, inter-personal and societal skills. Every Graduate of Sophia Girls' College, (Autonomous) is expected to possess the following attributes:

Attribute 1: Subject Expertise

Graduates have a broad and lucid comprehension of their discipline as well as the ability to apply the pragmatic aspect of this knowledge in various professional and life entailing situations.

Attribute 2: Innovative and Analytical Thinking

Graduates are capable of using imagination to design and develop fresh and innovative approaches. They have the ability to generate original ideas, concepts, solutions, arguments, proposals and new kinds of values by thinking independently in novel ways.

Attribute 3: Problem Solving

Graduates have the knack for comprehending problems, identifying key issues, assessing the strengths and weaknesses of alternative options and finding ways to work through the challenges.

Attribute 4: Introspection and Emotional Quotient

Graduates are contemplative, sagacious and capable of giving constructive feedback. They are conscientious and their demeanour is marked with grace and integrity.

Attribute 5: Self-Reliance

Graduates are equipped with confidence, capability, assurance, independence and enterprise which enable them to fulfil their personal and professional aspirations.

Attribute 6: Communication Skills and Cooperation

Graduates are able to contribute both individually and collectively towards attaining common goals. They are capable of expressing themselves efficiently at all domains of their private and public life.

Attribute 7: Ingenuity and Leadership

Graduates engage in lifelong learning, improvising their behaviour and capabilities to serve as efficient workers, leaders and entrepreneurs in their life pursuits.

Attribute 8: Digital Competency

Graduates are well prepared to select modern computing tools, skills and techniques necessary for functioning in the contemporary digital world.

Attribute 9: Social Responsibility

Students are conscious of the generally accepted norms of ethical behaviour and are capable of acting in a socially responsible manner in the outside world.

Attribute 10: Engaged Citizenship

Graduates are aware of the social and environmental concerns plaguing the local, national and global communities and consider it their responsibility to make meaningful contributions for their well-being.
